

ED RUSH

AUDIO VISUAL (AV) INFORMATION

Ed is one of the most unique speakers you will ever see. He'll spend at least 50% of the speech off the stage and in the audience. So when the room is set up right, it will create a fun, interactive atmosphere.

ROOM SET UP

- **Best:** Classroom style in a Chevron-shape.
- **Next Best:** Classroom or Theater style.
- **Worst:** Circular tables

Ideally, move the seats as close to the stage as possible.

MICROPHONE

- **Best:** Headset
- **Next Best:** Lavalliere
- **Worst:** Handheld

OTHERS

- Power point will be used (with audio & video), so you will need a screen to fit the audience.
- Preferred Large Group set up: large raised platform (3-6') with one table and no podium.
- Small Group set up (50 or less): no stage needed and Ed might not even need a mic.
- Ed needs a way to easily get off stage and into the audience.
- Ed generally prefers to see the room the night before (if possible).
- All A/V needs should be discussed NLT 2 weeks prior to the event.
